

Compatibility Support Matrix:

Avid Media Composer Distributed Processing

Visit https://kb.avid.com/pkb/articles/en_US/compatibility/Avid-Video-Compatibility-Charts for additional compatibility information. See "Avid Editor Compatibility Matrix" for information on Media Composer compatibility with MediaCentral Production Management, or see the "MediaCentral Compatibility Matrix" for additional information on the MediaCentral Platform.

* The top row in the tables below refer to the components that are installed on Windows or macOS service workstations. Media Composer | Distributed Processing (MC | DP) server components are bundled with each release of Avid MediaCentral Cloud UX.

* For cells that list multiple versions, you might need to consult another companion matrix. For example, you might need to confirm that your MediaCentral Cloud UX version listed below is compatible with the version of Shared Library (if applicable).
