

EUCON 2022.9 Release Notes

for Avid S4/S6, S1, S3, Dock, Avid Control, and Artist Series Control Surfaces

EUCON 2022.9 is a compatibility and bug fix release for EuControl/EUCON Workstation and S4/S6 Master Module software.

Compatibility

S4/S6 Master Module software version 2022.9 adds support for the new Portwell motherboard found in all new Universal Master Modules and Display Modules.

What is Fixed in EUCON 2022.9

Avid S4/S6

- The About screen now shows the status of the S4/S6 license (GWSW-16007)
- It was possible for faders to fail to update completely while banking and using Attention Expand faders (GWSW-15916)
- It was possible for level and mute values to persist after collapsing Expand Faders (GWSW-15914)
- On Mac systems, it was possible for software such as CrowdStrike to cause unexpected disconnects (GWSW-15817)
