

Revised 10/16/2018

Simplified Combined Avid NEXIS and ISIS Client-Server Compatibility

Avid NEXIS v2018.9 client is compatible with all Avid NEXIS v2018.x and v7.x Avid NEXIS server versions, along with Avid ISIS v4.7.5 and higher.

* Avid NEXIS v5.x and v6.x are no longer recommended or supported.

** Avid NEXIS v7.3 - v2018.3 (inclusive) are not recommended due to an issue that prevents correct monitoring and alerts for shared metadata SSDs.
